

# REGISTERING WITH DIGNITY (RWD) A BLUEPRINT FOR LIFE ON THE REGISTRY

People registered for sex crimes and, by extension, their loved ones, are often forced to disentangle a bewildering set of rules, regulations, and restrictions. Failing to follow any one of them can result in felony charges, massive fines, and/or additional incarceration. Until now, a comprehensive guide to reentry and the registry has not existed.

## *HERE ARE 4 WAYS RWD EMPOWERS YOU:*

### **1. LEARN THE BASICS**

Do you often wonder about why the registry exists, how it will impact you and your loved ones, and what your rights are as a person on the registry? Registering with Dignity will explain it all and teach you self-advocacy.

### **2. SET EXPECTATIONS**

Have you been blindsided by the complexity of your state's registration and notification scheme? This handbook will set expectations for community supervision, treatment, and most importantly, registration procedures.

### **3. TAKE RESPONSIBILITY**

Do you often feel victimized by the registry? It is up to you to challenge your beliefs. Take ownership of your conviction and learn how to manage the daily problems with life on the registry.

### **4. LOCATE SUPPORTS**

Have you felt lost in trying to deal with community supervision and locating employment and housing? Registering with Dignity outlines some ways to tackle these problems head-on and regain a sense of control.
