

BY THE NUMBERS

904,000

The number of people on U.S. sex offender registries. That's more than the entire population of the State of Alaska!

The percent of sexual offenses committed by someone who is **NOT** on a registry.

95%

90%

The percent of sexual assault victims who knew their attacker prior to assault. "Stranger Danger" is largely a **myth**.

The percent of known contact sexual offenses committed by **juveniles**.

23%

3.5%

The percent of registrants who are reconvicted of another sexual offense within 3 years. The 3-year recidivism rate for all classes of crime is roughly 67%.

The number of scientific or scholarly studies **conclusively** demonstrating that sex offender registries make our communities safer.
